Volume Contents

Volume 28 Number 1 — January 2000

Discussion
Research assessment—a blessing in disguise? 1
F. Smales

Review
Intra-oral topical anaesthetics: a review 3
J.G. Meechan

The teaching of Class I and Class II direct composite restorations in European dental schools 15
N.H.F. Wilson and I.A. Mjör

Validity of the examination method of occlusal contact pattern relating to mandibular position 23
T. Ogawa, T. Ogimoto and K. Koyano

Investigations into the use of an ultrasonic chisel to cut bone. Part 1: forces applied by clinicians 31
B.S. Khambay and A.D. Walmsley

Investigations into the use of an ultrasonic chisel to cut bone. Part 2: cutting ability 39
B.S. Khambay and A.D. Walmsley

Composition of the oral streptococcal flora in healthy children 45
V.S. Lucas, D. Beighton and G.J. Roberts

Adaptation of dental plaque to metabolise maltitol compared with other sweeteners 51
A. Maguire, J. Rugg-Gunn and G. Wright

Cytotoxic effects of composite restorations employing self-etching primers or experimental antibacterial primers 61
S. Imazato, H. Tarumi, N. Ebi and S. Ebisu

Retentive and compressive strengths of modified zinc oxide–eugenol cements 69
S.Y. Lee, C.C. Wang, D.C. Chen and Y.L. Lai

Volume 28 Number 2 — February 2000

Review
Designing new treatment strategies in vital pulp therapy 77
D. Tziafas, A.J. Smith and H. Lesot

Review
Subgingival calculus: where are we now? A comparative review 93
E.A. Roberts-Harry and V. Clerehugh

Iatrogenic damage to approximal surfaces in contact with Class II restorations 103
V.A.F. Medeiros and R.P. Seddon

A five-year clinical evaluation of Class II composite resin restorations 111
B. Köhler, C-G. Rasmusson and P. Ödman

Three-year clinical evaluation of a polyacid-modified resin composite in minimally-invasive occlusal cavities 117
Z.C. Çehreli and N. Altay

Clinical evaluation and microstructural analysis of a direct placement gallium restorative alloy 123
J. Neo, C.L. Chew, J.W. Osborne and D.B. Mahler

Accuracy of estimation of dental treatment need in special care patients 131
M. Hennequin, D. Faulks and D. Roux

Usage of denture adhesives 137
A.J. Coates

A new imaging technique for measuring the surface strains applied to dentine 141
J.E.A. Palamara, P.R. Wilson, C.D.L. Thomas and H.H. Messer

Effects of pH and concentration of citric, malic and lactic acids on enamel, in vitro 147
J.A. Hughes, N.X. West, D.M. Parker, M.H. van den Braak and M. Addy

Volume 28 Number 3 March 2000

Editorial v
From the new Editor
Neil Meredith

Review
Current and potential pulp therapies for primary and young permanent teeth 153
D.M. Ranly and F. Garcia-Godoy

Review
Porcelain veneers: a review of the literature 163
M. Peumans, B. Van Meerbeek, P. Lambrechts and G. Vanherle

Scanning electron microscopic observations of human dentine after mechanical caries excavation 179
A. Banerjee, E.A.M. Kidd and T.F. Watson

Ultrasonic measurement of enamel thickness: a tool for monitoring dental erosion? 187
M.C.D.N.J.M. Huysmans and J.M. Thijssen

Monkey pulpal response and microtensile bond strength beneath a one-application resin bonding system in vivo 193
Y. Kitasako, M. Nakajima, P.N.R. Pereira, M. Okuda, H. Sonoda, M. Otsuki and J. Tagami

Bacterial morphotypes and early cellular responses in clinically infected and non-infected sites after combination therapy of guided tissue regeneration and allograft 199
S.-J. Lin, L.-T. Hou, C.-M. Liu, C.-S. Liao, M.-Y. Wong, J.-Y. Ho and W.-K. Chang

Referees December 1998–December 1999 207

Volume 28 Number 4 May 2000

Review
A systematic review of single-tooth restorations supported by implants 209
N.H.J. Creugers, C.M. Kreulen, P.A. Snoek and R.J.A.M. de Kanter

Review
The usefulness of radiographs in diagnosis and management of periodontal diseases: a review 219
A. Tugnait, V. Clerehugh and P.N. Hirschmann

Quality evaluation of process of root canal treatments performed on young adults in Finnish public oral health service 227
S.E. Helminen, M. Vehkalahti, E. Kerosuo and H. Murtomaa

Restorative treatment provided over five years for adults regularly attending general dental practice 233
J.E. Clarkson, H.V. Worthington and R.M. Davies

A new electrical method for detecting marginal leakage of in vitro resin restorations 241
Y. Iwami, H. Yamamoto and S. Ebisu

In vitro caries inhibition at the enamel margins of glass ionomer restoratives developed for the ART approach 249
R.J. Smales and W. Gao

Erosion of deciduous and permanent dental hard tissue in the oral environment 257
M.L. Hunter, N.X. West, J.A. Hughes, R.G. Newcombe and M. Addy

Relative susceptibility of deciduous and permanent dental hard tissues to erosion by a low pH fruit drink in vitro 265
M.L. Hunter, N.X. West, J.A. Hughes, R.G. Newcombe and M. Addy

In vitro approach to evaluate potential harmful effects of beer on teeth 271
F.N. Nogueira, D.N. Souza and J. Nicolau

Human odontoblast cell numbers after dental injury 277
P.E. Murray, I. About, P.J. Lumley, J.-C. Franquin, M. Remusat and A.J. Smith

Effect of thione primers on bonding of noble metal alloys with an adhesive resin 287
H. Matsumura, K. Kamada, N. Tanoue and M. Atsuta

Short communication
Reasons for tooth extraction in Scotland 295
I.G. Chestnutt, V.I. Binnie and M.M. Taylor

Volume 28 Number 5 July 2000

Direct resin composite inlays/onlays: an 11 year follow-up 299
J.W.V. van Dijken

Caries-associated micro-organisms in infants from different socio-economic backgrounds in Scotland 307
J.R. Radford, H.M. Ballantyne, Z. Nugent, D. Beighton, M. Robertson, C. Longbottom and N.B. Pitts

General dental practitioners diagnostic and treatment decisions related to fissure sealed surfaces 313
C. Deery, H.E. Fyffe, Z.J. Nugent, N.M. Nuttall and N.B. Pitts

Enamel demineralisation assessed by computerised image analysis of clinical photographs 319
P.E. Benson, N. Pender and S.M. Higham

Human pulp reaction to dentine bonded amalgam restorations: a histologic study 327
R.K. Sübay, C.F. Cox, H. Kaya, B. Tarim, A.A. Sübay and M. Nayır

Effects of topical Catalase application on dental pulp tissue: a histopathological evaluation 333
A. Alaçam, Ö. Tulunoglu, T. Oygür and S. Bilici

A new screening test for toxicity testing of dental materials 341
M. Pelka, C. Danzl, W. Distler and A. Petschelt

Effect of region and dentin perfusion on bond strengths of resin-modified glass ionomer cements 347
P.N.R. Pereira, H. Sano, M. Ogata, L. Zheng, M. Nakajima, J. Tagami and D.H. Pashley

Analysis of composite type and different sources of polymerization light on in vitro toothbrush/dentifrice abrasion resistance 355
N. Tanoue, H. Matsumura and M. Atsuta

Microtensile bond strengths of glass ionomer (polyalkenoate) cements to dentine using four conditioners 361
M. Tanumiharja, M.F. Burrow and M.J. Tyas

Effect of finishing technique on the microleakage and surface texture of resin-modified glass ionomer restorative materials 367
A.D. Wilder Jr., E.J. Swift Jr., K.N. May Jr., J.Y. Thompson and R.A. McDougal

Volume 28 Number 6 August 2000

Direct composite inlays versus conventional composite restorations: 5-year follow-up 375
R.W. Wassell, A.W.G. Walls and J.F. McCabe

Performance of tunnel restorations at 3–6 years 383
S. Nicolaisen, F.R. von der Fehr, N. Lunder and I. Thomsen

Water fluoridation, poverty and tooth decay in 12-year-old children 389
C.M. Jones and H. Worthington

Short communication
Oral pH and drinking habit during ingestion of a carbonated drink in a group of adolescents with dental erosion 395
R. Moazzez, B.G.N. Smith and D.W. Bartlett

Marginal integrity of large compomer Class II restorations with cervical margins in dentine 399
Th. Dietrich, M. Kraemer, G.M. Lösche and J.-F. Roulet

Improving fissure sealant quality: mechanical preparation and filling level 407
S.B. Geiger, S. Gulayev and E.I. Weiss

In vivo study of the pulp reaction to Fuji IX, a glass ionomer cement 413
N. Six, J.-J. Lasfargues and M. Goldberg

Microleakage and SEM interfacial micromorphology of amalgam restorations using three adhesive systems 423
M. Toledano, E. Osorio, R. Osorio and F. García-Godoy

Time-and-motion study on Class II copy-milled ceramic inlays 429
C.M. Kreulen, H. Moscovich, K.A. Dansen and N.H.J. Creugers

Evaporation of solvent in one-bottle adhesives 437
P.F. Abate, V.I. Rodriguez and R.L. Macchi

Characterisation of tribochemically assisted bonding of composite resin to porcelain and metal 441
R. Sun, N. Suansuwan, N. Kilpatrick and M. Swain

The effect of postcuring on quantity of remaining double bonds, mechanical properties, and in vitro wear of two resin composites 447
A. Peutzfeldt and E. Asmussen

Volume 28 Number 7 September 2000

Decision analysis in dentistry—the last 30 years 453
M. Rohlin and P.A. Mileman

Clinical crown length changes from age 12–19 years: a longitudinal study 469
L.A. Morrow, J.W. Robbins, D.L. Jones and N.H.F. Wilson

Splints and stress transmission to teeth: an in vitro experiment 475
M. Halachmi, A. Gavish, E. Gazit, E. Winocur and T. Brosh

Penetration of radiocalcium at the margins of resin and glass ionomer dentine bonding agents in primary and permanent teeth 481
Ö. Tulunoglu, I. Tulunoglu, T. Ulusu and Y. Genç

The effect of interface stiffness on dentin–composite interfacial fracture resistance 487
L.E. Tam and R.M. Pilliar

Marginal adaptation of a new compomer under different conditioning methods 495
Y. Luo, F.R. Tay, E.C.M. Lo and S.H.Y. Wei

Effect of hydrostatic pressure on regional bond strengths of compomers to dentine 501
L. Zheng, P.N.R. Pereira, P. Somphone, T. Nikaido and J. Tagami

Flexural properties of fiber reinforced composite using a vacuum/pressure or a manual adaptation manufacturing process 509
M. Behr, M. Rosentritt, R. Lang and G. Handel

An ultrastructural study of the application of dentine adhesives to acid-conditioned sclerotic dentine 515
S.-M. Kwong, F.R. Tay, H.-K. Yip, L.-H. Kei and D.H. Pashley

Structural reliability of alumina-, feldspar-, leucite-, mica- and zirconia-based ceramics 529
J. Tinschert, D. Zwez, R. Marx and K.J. Anusavice

Erratum 537

Volume 28 Number 8 November 2000

Review
Endodontics in the adult patient: the role of antibiotics 539
L.P. Longman, A.J. Preston, M.V. Martin and N.H.F. Wilson

Quality evaluation of young adults' radiographs in Finnish public oral health service 549
S.E.Helminen, M. Vehkalahti, J. Wolf and H. Murtomaa

Nutrient intake in partially dentate patients: the effect of prosthetic rehabilitation 557
P.J. Moynihan, T.J. Butler, J.M. Thomason and N.J.A. Jepson

Fractional inhibitory concentration index of combinations of antibacterial agents against cariogenic organisms 565
M.G. Botelho

Low-cariogenicity of trehalose as a substrate 571
T. Neta, K. Takada and M. Hirasawa

Effect of cement type on retention of a tapered post with a self-cutting double thread 577
M. Rosin, Ch. Splieth, M. Wilkens and G. Meyer

Contributing factors of mandibular deformation during mouth opening 583
D.C. Chen, Y.L. Lai, L.Y. Chi and S.Y. Lee

The hardness and modulus of elasticity of primary molar teeth: an ultra-micro-indentation study 589
E. Mahoney, A. Holt, M. Swain and N. Kilpatrick

Corrigendum 595
